Dear client:

This is an Addendum to the contract documents in connection with your kitchen order.

Please check off the section that applies to you, and have it signed by all the parties named below.

You are representing to us, Timberfusion, that there will be no additional work required, including but not limited to, work on the walls, floors, door frames, tiling, and window. In this circumstance, one of our architects/designers will perform a full survey of your space and we will order the Timberfusion products in accordance with the design that will have been signed off by you and/or your architect/designer. We will provide you with the necessary mechanical drawings that will outline the location and preparation of the electrical, plumbing and blocking rough-ins. In this connection, we will be responsible for the measurements of your existing kitchen space. Please note that if the electrical, plumbing and blocking rough-ins are not prepared or located in accordance with our mechanical drawings, there will be delays in the installations. We may even have to charge you extra for the extra time spent on the installation at our current standard rate of £40 per hour. During the period of installation, we will need access to an empty room that will serve as storage space for your Timberfusion order and working space for our installers if your kitchen space is not finished.

By signing off on these drawings, you, your general contractor and architect/designer acknowledge that all of you will make sure that your kitchen space will have been prepared exactly and in accordance with the specifications on the drawings prior to our installation date.

One of our architects/designers will conduct a site visit, unless waived, approximately one week prior to the initial date of installation to check that the space has been prepared in accordance to the specifications in the drawings.

If there is any deviation from the drawings, we will have the option to either:

a) Postpone the date of installation until your space has been prepared to our satisfaction. We will schedule another site visit, to ensure that our installer can carry out his work. Please note that the postponement may involve weeks rather than days due to the fact that our installation schedule is prepared at least two (1) months in advance.

b) Continue your installation as originally scheduled. By agreement

Sincerely,

Agreed and acknowledged:
